

## **Ducks & Geese**

At Craigievern we usually have 3 types of ducks available. We also have Khaki Campbell eggs and Indian Runner hatching eggs available as long as the ducks are laying.

### **Kortlang Khaki Campbell**

A good laying duck, laying approx 320 eggs per year. You can expect 2 good laying seasons expected before they tail off. Lay a White egg.

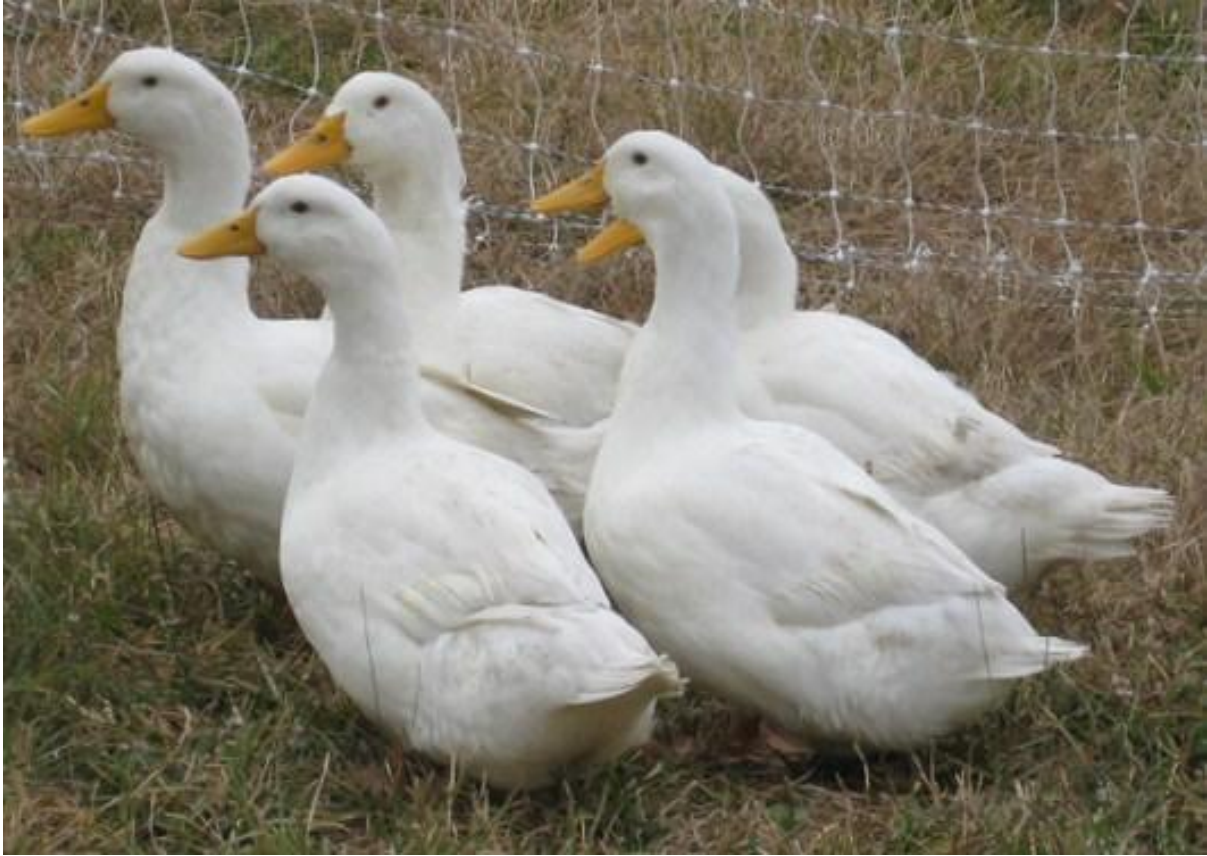

**White Indian Runners**

**Lay a large green/blue eggs and you can expect approx 150-200 per year.**

### **Kortlang Whites**

Aylsbury X Pekin. Lay approx. 310 eggs per year. Eat slightly more food than the Khaki's but also lay a larger egg. Lay a white egg.

### **Chiltern Geese**

We occasionally have geese available for sale. These are good laying geese, and lay better in their 2<sup>nd</sup> year laying. We don't keep a many throughout the year but can supply them in the spring at day old.
